

Keeping people in Suffolk warm this winter

“Suffolk Winter Warmth” provides items such as hats, gloves, scarves, blankets, duvets, baby sleep bags, hot water bottles, LED bulbs, draughtproofing and more, to households in need.

Following a successful pilot in November, Suffolk Winter Warmth launched this week. The project provides support for any household experiencing hardship and in need of support to prevent ill health and keep warm. Residents can be referred by professional or voluntary sector organisations supporting residents who are struggling to heat their homes. These organisations include: District and Borough Councils, Health Professionals, Citizens Advice and Community Groups, Suffolk Fire and Rescue Service, Rural Coffee Caravan and more.

The project is backed by £50,000 of funding from Suffolk’s Collaborative Communities Board and is co-ordinated on behalf of the whole county by East Suffolk Council.

Professional and voluntary organisations can refer residents to the scheme by visiting: <https://www.eastsuffolk.gov.uk/community/squeeze/i-want-to-help/winter-warmth-referral>

Historic half a billion-pound devolution deal hands Suffolk regeneration and skills powers to level up.

Suffolk will be devolved power over their Adult Education budget, so they can shape provision in a way that best suits the needs of the local community and will receive immediate support to build new affordable homes on brownfield sites, as well as more capital funding to improve energy efficiency in houses.

The deal will also see Suffolk County Council handed control over a £480 million investment fund – this will be guaranteed for the next thirty years. This will enable the county to drive growth and plan for the long-term with certainty as it looks to level up and unlock its full economic potential.

Suffolk will also get a directly elected leader of the council. This not only provides a single person who is accountable to the people of Suffolk but gives the county a local champion who can attract investment and be a stronger voice in discussions with central government.

Record number of residents help shape county council budget

Each year, councils everywhere engage with their residents about how much money they plan to spend on public services, in order to set their annual budget. Suffolk County Council is no different with a budget that funds services from gritting roads during the winter, to providing Family Hubs and keeping the most vulnerable people safe and well. The budget for Suffolk County Council services in 2022/23 is £625 million.

Between early October and the start of December, the county council collected a total of 2,617 responses. From this feedback which was made up of a wide range of individuals, it saw that social care for both adults and children were the two top areas where people feel the council should be spending more, with mental health services the next most important area. Just behind these areas, residents want more to be spent on the county's roads and pavements and local bus services.

Council to protect frontline services and increase funding in budget proposal

Adult care services and children's services will receive £47m more funding as part of Suffolk County Council's £685m budget proposals, published today.

Despite an incredibly challenging economic climate, the council has been able to produce a balanced budget. This will protect the services that people rely on the most and continue to care for the most vulnerable, which accounts for 75% of the whole budget.

Adult care services will have £34m more in their budget, and children's services will have a further £13m. This will help with the extra expense needed to meet the huge increase in demands for services, as well as higher costs due to inflation.

Some of the service areas where people also said they wanted to see more money spent, will receive additional funding:

- £700,000 for SEND services to support new recruitment, which is on top of the £1.1m invested this year
- £500,000 for Highways: to use environmentally friendly weed treatments, and stop using glyphosate which can damage wildlife
- £110,000 for tree management: to support the 'right tree right place' policy, having an appropriate inspection regime and supporting the resulting tree management requirements.
- £45,000 for Citizens Advice: to support work during cost of living challenges

A budget gap for next year - the difference between what money is available and what needs to be spent - had already been identified, resulting in savings of £15.5m for next year.

Under the proposals, the council's budget would increase by 9.6% (from £625.3m to £685.3). Additional funds would come from a total 3.99% increase in Council Tax, and an increase in funds from the Government for adult and children's social care.

Regarding Council Tax, the proposed 3.99% increase would be made up of a 1.99% increase in general Council Tax and a 2.00% increase dedicated to funding adult care
